Celia Arañó Suárez, MD, Brings Excellent Health Care to the Intensive Care Unit

By Abdel Alexis, Director of Human Resources

The Intensive Care Unit recently welcomed Celia Arañó Suárez, MD, to the department. Originally from Nueva Gerona (Isla de la Juventud) in Cuba, Dr. Suárez studied Medicine at the Faculty of Medical Sciences on Isla de la Juventud in Cuba. During her internal medicine residency, she completed numerous rotations in the intensive care department and developed a deep affinity for critical care. In June 2016, Dr. Suárez obtained her Doctor of Medicine (MD) degree. In 2017, eager to deepen her knowledge, she joined the staff at "Héroes del Baire General Teaching Hospital as an internist and stayed for three years.

Dr. Suárez joined the staff of Hôpital Sacré Coeur in November 2023 as an internist assigned to the intensive care unit (ICU). Her diligence and medical expertise returned many critical patients to robust health. The health and comfort of her patients is always foremost on her mind.

Dr. Suárez's commitment, reliability, and expertise mirror the excellent and compassion standards of Hôpital Sacré Coeur. ■

Counting Our Blessings...

We are so grateful for the peace, mutual respect, and healing that have resulted from the joint efforts of the community and Hôpital Sacré Coeur. Please enjoy these photos, all date stamped March 8, 2024. ■

The Need For Food Could Not Be Greater... You Can Help.

St. Elizabeth of Hungary Parish, Wyckoff, NJ packed the 2 millionth meal on November 18, 2023

Once again, the continuing closure of the border between Haiti and Dominican Republic and supply distributions in the South of Haiti have severely hampered food supplies.

Haiti Health Promise's national food-packing program, Feed Milot, Haiti Packathon, has been a literal lifeline for thousands of starving people — children, pregnant women, the elderly, and the medically compromised.

In the last two years, the generous efforts of over 7,000 food packers and financial sponsors shipped 2,205,980 nutritious meals to Hôpital Sacré Coeur for distribution to the neediest in Milot.

Together, we can pack another 1,500,000 meals in 2024.

Sponsor a packathon in your community. Create memories that will last a lifetime.

Learn about the resilience of our brothers and sisters in Milot and the complexities of running a hospital in Haiti.

As Holy Name President and CEO Michael Maron notes, "Running a hospital in Haiti is unlike any healthcare experience in the United States. Hôpital Sacré Coeur is more than just a

hospital. The health promise to provide high-quality, responsive care to the community has drawn Hôpital Sacré Coeur into other social determinants of health."

Enjoy the fun and excitement of knowing the food you packed will provide desperately starving people with nourishment and hope for a better future.

You can make a difference. As Maron notes, "Packathons help communities engage and feel more involved and be part of the solution."

Haiti Health Promise staff will do the heavy lifting: They will provide you with a step-by-step guide to ensure success, give you all the marketing tools needed to create an exciting event, and manage the logistics of running the packathon.

For more information, please contact Dr. Joni Paterson, HHP Executive Director at paterson@crudem.org.
